

DSW-1H

WIRELESS SUBWOOFER FOR DENON DHT-S716H

DEEP
BASS

Deep Bass for Home Theatre and Music

The DSW-1H can be combined with the Denon DHT-S716H soundbar and other selected HEOS Built-in products to add more fulfilling bass to your home theatre system. Add the subwoofer to the DHT-S716H to create a 3.1 system. Two custom-made 5.25" driver work in combination with sophisticated, high-power 70-Watt power supply, class-D amplification to deliver clear, room-filling bass.

EASY
SETUP

Easy Set up

Setup of your DSW-1H Wireless Subwoofer takes only a few minutes. Simply connect it to your Denon DHT-S716H soundbar or other HEOS speakers through your home network and group to start experiencing dramatic bass instantly. Then simply control all your sound settings via the HEOS App.

5.1

Build True Surround Sound Experience

With HEOS Built-in, it's easy to add your Denon DSW-1H Wireless Subwoofer to your DHT-S716H soundbar and a pair of Denon or HEOS enabled speakers to create a true 5.1 surround sound experience.

USB Drives Supported

The Subwoofer supports USB thumb drives via the built-in USB port. Music content on this connected USB drive can be played back on any HEOS Built-in product in your home. Have it all at your fingertips with the intuitive HEOS App.

Custom Your Bass

Advanced 40Hz - 250Hz low pass filter and normal/180° phase settings are available for advanced users to fine-tune bass performance. Subwoofer volume control button on top for your preferred taste in bass.

About Denon

Founded in 1910, Denon has a deep heritage of “firsts” in audio technology — from Japan’s first audio electronics manufacturer, to producing the world’s first commercial CDs. This focused investment in audio R&D ensures you get the latest technology and highest quality with every listening experience.
